**Amendments to the Specification:**

Please replace the paragraph beginning at page 7, line 14, with the following rewritten paragraph:

- -The present invention ~~10~~ is a mobile wireless Pay Per View event and program system and method (m-PPV) that allows a television subscriber to purchase Pay Per View (PPV) events for the subscriber's television system, by using a wireless device such as a cell phone or a PDA and by using Wireless Application Protocol Technology.- -

Please replace the paragraph beginning at page 8, line 6, with the following rewritten paragraph:

- - A user with a cellular phone ~~15~~ can access the m-PPV system by typing the URL (location) of the m-PPV system and sending an encoded request ~~30~~ on cellular phone ~~15~~. The cellular phone will contact the cellular tower ~~20~~ and then a Carrier Gateway ~~25~~. The carrier Gateway ~~25~~ converts the encoded wireless request ~~30~~ from WML to HTML via encoders and ~~eneoders~~ decoders ~~52~~ and forwards a wireless request ~~35~~ to a Web Server ~~40~~ where the m-PPV system resides ~~45~~.- -
